

20 LINE MAINTENANCE ENGINEERS

Zephiro Aircraft Service srl,

located in Cosenza, Italy is specialized in aircraft maintenance and works in collaboration with Northern Aerotech. They are currently seeking **20 Line Maintenance Engineers**.

The selected candidates will be responsible for ensuring the airworthiness of aircraft during operations, focusing primarily on maintenance and servicing between flights or during short turnarounds.

Job requirements

- **Certification:** Typically requires an Aircraft Maintenance Engineer License (AMEL), issued by aviation regulatory bodies such as FAA (for the U.S.) or EASA (for Europe).
- **Previous experience** on Airbus A320 or Boeing 737 aircraft is required, even on just one of these models. The company offers the possibility of specific internal training on only one of the two aircraft.

Nice to have

Skills and Qualifications:

- **Technical Expertise:** Strong knowledge of aircraft systems (e.g., avionics, hydraulics, engines).
- **Attention to Detail:** Ability to identify even minor issues that could impact aircraft safety.
- **Problem Solving:** Quick and efficient troubleshooting to resolve issues under time pressure.
- **Physical Fitness:** The job can be physically demanding, requiring engineers to work outdoors, in tight spaces, and on their feet for long periods.
- **Adaptability:** Ability to work in shifts, including nights, weekends, and during inclement weather.

Benefits

Type of contract: Full-time, permanent contract. Gross annual salary: € 52,500. Flights and overnight accommodation paid by the company.

The job posting can be found on the EURES platform at the following link: <https://europa.eu/eures/portal/jv-se/jv-details/ODA2NTU0IDE3?lang=it>
